### MEASUREMENT DESCRIPTION

Waist	:	<input type="text"/>	Wrap the measuring tape around your natural waistline. This is usually close to the belly button. Again, place one finger between the waist and the tape. Also, stand naturally for this. Don't pull too tight & too loose.
Hips	:	<input type="text"/>	Wrap the measuring tape around the widest point of your hips. This is usually around the buttocks and below the belt. Don't pull too tight & too loose. Place one finger between the hip and the tape.
Crotch	:	<input type="text"/>	The rise is measured from the crotch all the way to the top of the waistband at the back. The Back rise will always be bigger than the front rise.
Thigh	:	<input type="text"/>	Wrap the measuring tape around the widest part of your thigh. Keep it parallel to the floor; don't pull too tight & too loose. Place one finger between the thigh and the tape
Length	:	<input type="text"/>	Measure the outer length from the waist to the bottom of the leg or the length you want, you should measure the length while wearing your shoes.
